COURSE OVERVIEW

Join us for two days of live lectures, panel discussions and limb salvage cases. This year's program brings together renowned lower limb specialists to discuss the latest education and outcomes needed to heal wounds and prevent amputations.

The increasing incidence of diabetic foot ulcers and wounds creates challenges for practitioners treating this complex comorbidity. This activity offers an in-depth review of limb revascularization and wound care for patients with diabetes and updates health care practitioners on current trends focused in the biologic basis of vascularization in diabetes, assessment and classification of wounds, and therapies. Through a knowledgeable approach to treating this patient population, practitioners will be able to incorporate the latest research and clinical trial findings into their practice.

TARGET AUDIENCE

This course is designed for internists, surgeons, interventional cardiologists, podiatrists, wound and acute care specialists, physician assistants, hospital and skilled nursing staff, and administrators of wound care centers.

ACCREDITATION

Learning Objectives

By attending this activity, participants will be able to:

- Compare and contrast outcomes data on interventional strategies for revascularization for limb salvage
- Select the most appropriate surgical approach to limb revascularization
- Present an evidence-based discussion of strategies for diagnosing and treating diabetic wounds
- Implement offloading strategies and therapeutic adjuncts to improve wound care
- Define the changes in coding related to vascular interventions and summarize the common pitfalls of wound care coding
- Present novel strategies for reducing readmissions and meeting CMS quality outcomes
- Identify and characterize atypical nonvascular wounds
- Discuss alternative and unique uses of negative pressure wound therapy to treat chronic wounds

Activity Goal

This activity is designed to address the following core / team competencies: *Patient Care, Medical Knowledge, Interprofessional Collaboration, Team and Team Building.*

Accreditation Statement

In support of improving patient care, Ciné-Med is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

JOINTLY ACCREDITED PROVIDER™
INTERPROFESSIONAL CONTINUING EDUCATION
